

NUR 314C : Adult Clinical I

This clinical course provides students with opportunities in an adult acute care setting. Students will demonstrate advanced skills in the lab and apply them in the clinical setting. Health promotion and maintenance, disease prevention and illness management will be integrated into the care of diverse client. Emphasis is placed on critical thinking, pharmacology, professional communication, and professional nursing roles. Evidence-based clinical decisions will be applied to the provision of client-centered care.

Credits 3

Prerequisites

All previously required support courses; junior standing in nursing or consent of the faculty.
