

Typhon Nurse Practitioner Student Tracking System

All MSN-FNP, FNP PGC, and DNP students are required to use Typhon Group Nurse Practitioner Student Tracking (NPST) electronic system for documenting clinical experiences.

Students will be provided with the web address and password for logging on to the system. Students will need to make a **one-time payment** to use the system throughout the remainder of their educational program.

Because the system is web-based, students can log on from anywhere without downloading software. All data entered onto the system are stored on a secure, HIPAA compliant server. Students can quickly and easily enter all patient encounter information on one page, including demographics, clinical information, diagnosis and procedure codes, medications, and clinical notes. A special section is available to log the observation, assistance, or completion of various competencies that are appropriate to the student's educational program. Dates and hours of clinical experiences, service learning and continuing education are entered on a time log. Students and faculty are able to access information in "real-time" and run reports by date, course, semester, clinical site, and preceptor for individual students or in aggregate for an entire class.

Another feature of the Typhon Group NPST is that students can create and customize their portfolios which can help in seeking employment after graduation. Students can provide potential employers with a password so that they may view selected aspects of the portfolio, such as a resume and list of completed courses, on the website.

Typhon Group NPST Website

The Typhon Group NPST website includes detailed instructions and videos to assist students in the use of all aspects of the system. For access to the Typhon Group NPST, go to:
